PROFESSIONAL SUMMARY

Graphic Artist and Bachelor of Science in Information Technology graduate with professional experience in graphic design, branding, marketing collateral, digital content creation, and visual communication. Skilled in Adobe Photoshop, Adobe Illustrator, Figma, HTML, and CSS, with a growing focus on UI design, user experience, responsive web development, and front-end implementation. Experienced in designing social media graphics, event materials, internal communications, audiovisual presentations, and promotional assets while maintaining brand consistency across digital and print platforms.

PROFESSIONAL EXPERIENCE

Graphic Artist

Wong Chu King Holdings Inc. | 2025–Present

- Design and produce social media graphics, marketing collateral, audiovisual presentations, and promotional materials for company events and campaigns.
- Create digital and print-ready visual assets while maintaining brand consistency across multiple platforms and communication channels.
- Collaborate with the Human Resources department to develop visual content for internal communications, employee engagement initiatives, and company events.
- Support company events and special projects through the development of branded layouts, promotional graphics, and presentation materials.

Graphic Artist

JJ Asilo Advertising | 2024–2025

- Designed and prepared high-resolution tarpaulin layouts for professional printing, ensuring accurate color output, clear visual hierarchy, and production-ready files.
- Created event tarpaulins for birthdays, weddings, local government unit events, community programs, and other public activities.
- Developed branding materials, including logos, posters, promotional graphics, and marketing layouts.

- Created signage and outdoor advertising layouts for storefronts using materials such as Panaflex and Sintra board.

PROJECTS

Mobile Learning Application (Adolescent Sexual Reproductive Health Mobile Learning Application) | College Capstone Project

Tools: Figma, Android Studio

- Designed the application's user interface and user experience using Figma.
- Developed an interactive prototype to demonstrate user flows, navigation, and core application functionality.
- Created a mobile learning concept focused on providing accessible educational information about adolescent sexual and reproductive health.
- Applied UI design and prototyping principles to organize content and improve usability.
